Adam James-Liebau Johnson

ajlj@umich.edu – 248-716-5054
Citizen of the United States and Italy

OBJECTIVE

To obtain a Computer Science internship in the United States or Europe that offers strong opportunities for me to learn and improve as a developer.

EDUCATION

BACHELOR OF SCIENCE IN ENGINEERING   expected graduation May 2016
University of Michigan, Ann Arbor, MI
Major: Computer Science
Minor: Entrepreneurship

RELATED SKILLS

LANGUAGES: (LISTED IN DECREASING ORDER OF EXPERIENCE)
Python, C++, Golang, C#, C, Java, ARM, Visual Basic

TOOLS: (NO PARTICULAR ORDER)
Eclipse, JetBrains IDEs, Visual Studio, Sublime Text, GCC, GDB, REPL interfaces, Git

WORK EXPERIENCE

ENGINEERING INTERN AT RETAILMENOT, INC.   Summer 2014
- Implemented a reverse proxy server in Golang
- Features include page caching, A/B testing, edge side includes, and rate limiting
- Participated in two weeks of learning sessions for technologies and development practices at RMN

SOFTWARE INTERN AT INSPECTRON TOOLS   Summer 2013
- Rewrote old software utilities (build automation, client update automation)
- Developed using C89 for an embedded device to limit the effects of hardware bugs
- Learned to develop under restrictions on usable libraries and speed

SOFTWARE INTERN AT ACCURATE TECHNOLOGIES, INC   Summer 2012
- Developed a proof-of-concept pattern recognition module for ATIs Vision client
- Worked with another intern to decide all aspects of design and implementation
- Learned how to manage work time, how to direct a project, how to communicate with coworkers

DISTINCTIONS

- University of Michigan Regent Scholar
- U of M College of Engineering Deans Honor List
- Finalist in University of Michigan's 1,000 Pitches Competition - Top 10 for the Health category
- Fiat-Chrysler Academic Excellence Scholarship
